***Financing Sustainability on Campus* Book Published**

Written by Ben Barlow, Second Nature Consultant

Edited by Andrea Putman, Second Nature Director of Corporate Partnerships

Introduced by Anthony Cortese, Second Nature President

Published by the National Association of College & University Business Officers

In *Financing Sustainability on Campus*, Ben Barlow, with guidance from Andrea Putman, provides higher education leaders with a comprehensive handbook to financing sustainability with real world examples, creative strategies, and clear explanations of a wide variety of financial tools and programs. This book offers a first-of-its-kind look at how colleges and universities are responding to the challenges of financing sustainability efforts. How can institutions blend financing options? How can a campus utilize a tax-exempt lease purchase contract? What tax incentives are available? When is bond financing your best option? What new liabilities will institutions need to recognize on their balance sheets? Geared to both newcomers and experienced practitioners, this guide walks you through the process—from identifying and analyzing the economics of proposed projects to execution—with examples from numerous individual campuses.
