

Carolyn Bacchus, Vice President, Client Solutions at Natural Capital Partners, works with organizations to develop and execute their climate and emission reduction goals. She assists companies in navigating the voluntary carbon and renewable energy markets as well as the evolving frameworks for carbon neutrality and net zero targets. For over twenty years Natural Capital Partners has worked to harness the power of business to create a more sustainable world. Through a global network of projects, the company delivers the highest quality solutions which make climate progress possible: reducing carbon emissions, generating renewable energy, building resilience in supply chains, conserving and restoring forests and biodiversity, and improving health and livelihoods. Since 2002 Natural Capital Partners has also overseen The CarbonNeutral Protocol, a publicly available corporate sustainability framework now in its 19th edition. Prior to joining Natural Capital Partners, Carolyn was at 3Degrees for over four years focused on utility green power programs and corporate greenhouse gas reduction solutions including energy attribute certificates and carbon offsets. Carolyn has both bachelors and masters degrees in public health.
