

Emma is the Program Coordinator of the Duke Carbon Offsets Initiative, where she works to develop and purchase offsets for Duke University's climate neutrality goal of 2024. Emma's background is in land conservation, on both a local and national level, as well as environmental advocacy. In 2019, she received her Master of Environmental Management degree with a focus on Community-Based Management from the Nicholas School of the Environment at Duke University and subsequently joined the Duke Carbon Offsets Initiative as the program coordinator.
